

STAND-ALONE AIR PURIFICATION

GET YOUR CLEAN AIR NOW

- Kills Airborne Bacteria & Viruses
- Combines UVC and HEPA
- Environmentally Friendly
- Rigorous Testing & Validation
- Used By World Leaders
- World Health Organisation

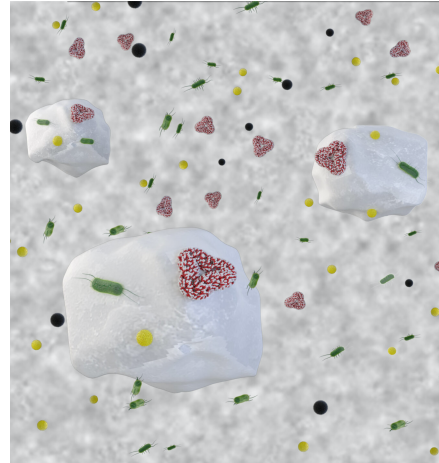

This diagram outlines the various types of particulates that surround our everyday being. Our technology captures and eradicates all of these.

Components

Removes pollution.
Improves air quality.

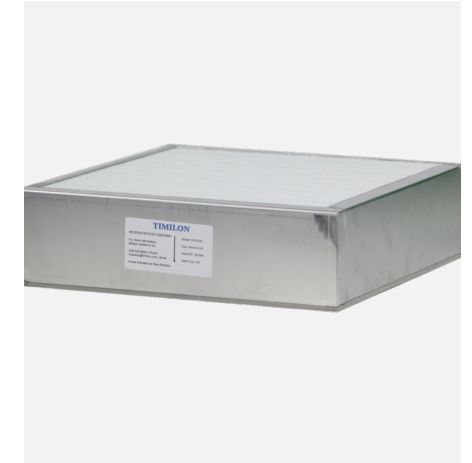

EnviroKlenz Air Cartridge

Containing the patented EnviroKlenz Technology, the EnviroKlenz Air Cartridge utilizes safe earth minerals to capture and neutralize odors, particulates, allergy triggers, and pathogens (including virus and bacteria) at a 99.9% efficiency.

Dual UVC Bulbs

9 watt germicidal UVC bulbs for additional germicidal irradiation and internal cleaning of the EnviroKlenz Air System

HEPA Filter

Medical Grade HEPA filter removes fine particulates at a 99.97% efficiency

How It Works

1

EnviroKlenz® Air Cartridge

- EnviroKlenz® Earth Mineral Technology
- Particulate Filtration
- Microbial and Pathogen Inactivation
- Toxic Chemical Neutralization
- Odor Elimination

2

UVC Bulbs

- Collection-side UVC treatment and deactivation of microorganisms and pathogens

3

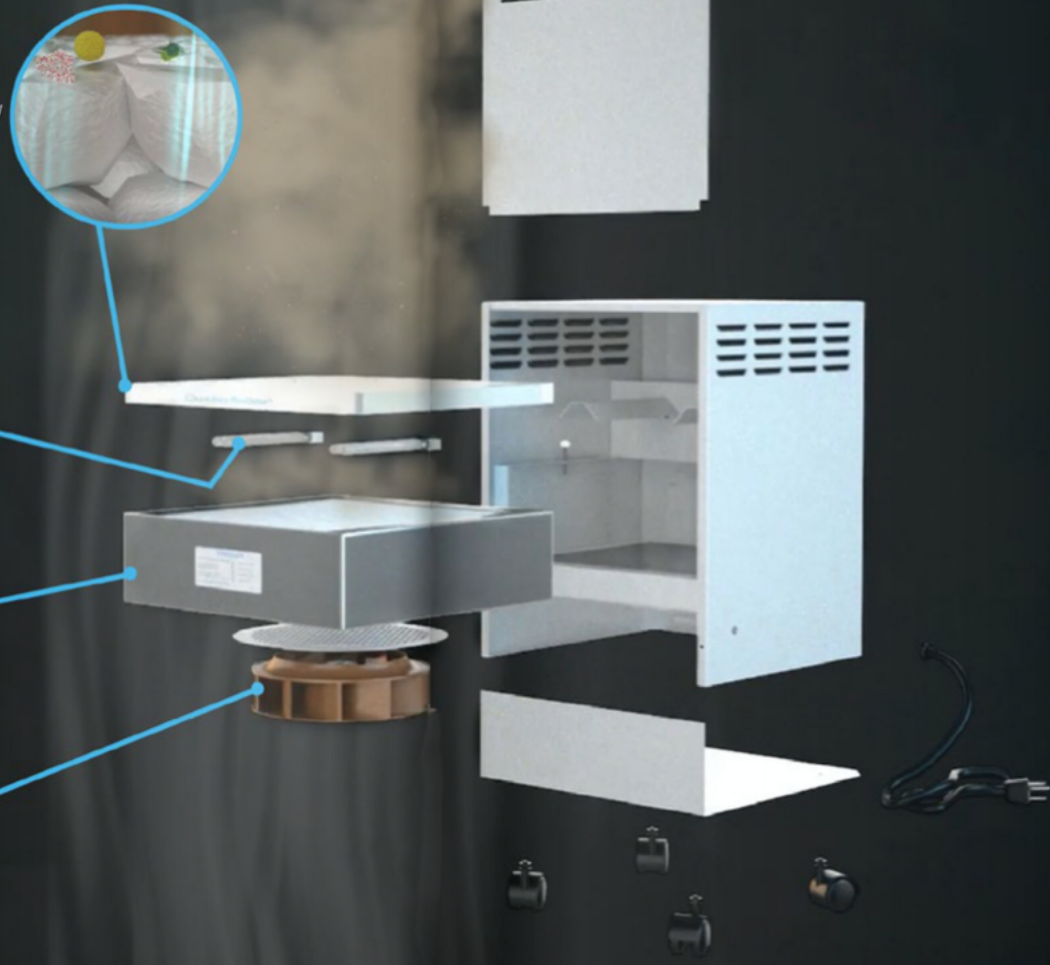

HEPA Filter

- Captures particulates at 99.99% efficiency.

4

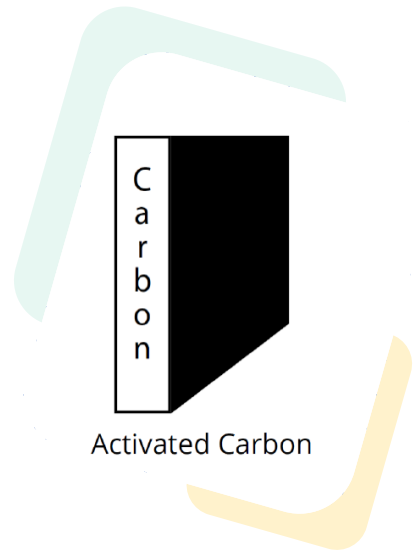

German-Made Blower

- 4-speed operations at 425 m3/hr

The primary performance capability of the EnviroKlenz Technology includes high surface area earth mineral powders to destroy, neutralize, eliminate, and protect against a wide variety of toxic chemicals, noxious odours, and biological hazards.

Our Technology is NOT

OUR AIR PURIFICATION SYSTEMS ARE USED IN

Medical Health

Our Air System can be a great addition to your medical office, hospital, dental office or retirement home

Hospitality

Make your guests and staff feel at home by improving your indoor air quality with our Air Purification Systems

Schools

Our Air Purification Systems can help improve indoor air quality in schools and Universities

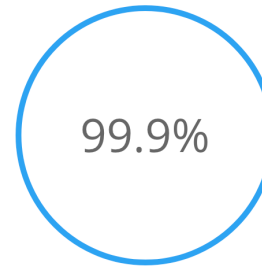

Residential

Choose the best air purification system for your family and they can start breathing clean air today

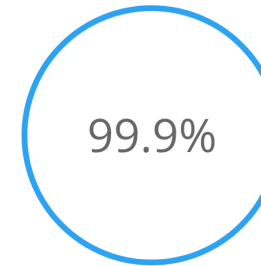

CASE STUDIES AVAILABLE ON REQUEST

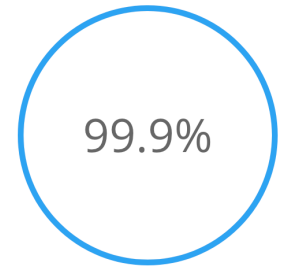

TESTED AND VERIFIED BY

Anti-viral Performance
Coliphage Phi-X174 (*0.025 microns in size*)

Gram-negative bacteria
E. coli

Gram-positive bacteria
Staphylococcus epidermidis

Trusted By

Benefits

Helping Companies futureproof their working environments

- Cleaner, Fresher & Safer Work Environment
- Reducing Workplace Absenteeism
- Increasing Employee Morale
- Adds Another Layer of Staff Protection
- Cost Effective
- No Impact on Building Infrastructure
- 5 Year Guarantee
- Options to Lease or to Buy
